MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Significant Activity During the Period 4 September
through 15 September 1971

The following activity which occurred during your recent absence
may be of interest to you:

DIA Request for Modification of DCID 1/14

In a memorandum to the Director of Central Intelligence dated 23 August 1971, Lieutenant General Donald V. Bennett, Director of Defense Intelligence Agency, requested that certain requirements in DCID 1/14 concerning Personnel Security Investigative Requirements, be changed or waived for the Department of Defense. The memorandum was a formalization of comments made by General Bennett in an Executive Session of the United States Intelligence Board on 19 August 1971. Specifically, he was requesting relief from the requirement for reinvestigation to update a security clearance when a background investigation is more than five years old.

The majority conclusion of the USIB Security Committee members, who considered the request on 2 September 1971, was to abide by the current investigative requirements of DCID 1/14. A memorandum to this effect was signed by the Director and forwarded to General Bennett on 10 September 1971. (Copies of General Bennett's and the Director's memoranda are attached, together with two Office of Security papers pertaining to the matter.)

MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Personnel Security Investigative Requirements (U)

Reference: Director of Central Intelligence Directive 1/14,
1 July 1968, "Uniform Personnel Security Standards and
Practices Governing Access to Sensitive Compartmented
Information."

1. (FOR OFFICIAL USE ONLY) Significant decrements have been levied on the General Defense Intelligence Program (GDIP) for FY 72 and FY 73. As Program Manager of the GDIP, I have determined that it is necessary to assess a substantial portion of these decrements against the Counterintelligence and Investigative Activities (CI&IA) elements of the Military Departments.
2. (FOR OFFICIAL USE ONLY) Dollar reductions can only be achieved through a reduction in manpower. In turn, this will force us to modify certain functions without incurring unacceptable risks to our security. One area in which substantial savings can be achieved is in the personnel security investigation (PSI) functional area.
3. (C) I have recommended to the Secretary of Defense that DoD PSI policies be modified to reduce PSI workload of the Services. Specifically I have recommended that the requirements for bring-up investigation be changed.
4. (C) Consistent with my recommendations to the Secretary of Defense, I propose a modification to DCID 1/14 with respect to the requirements for a bring-up investigation when a background investigation is more than five years old. In lieu of a bring-up investigation, I recommend the following:
 - a. National Agency Checks.
 - b. Local Agency checks.
 - c. New or updated statement of personal history.

d. Interview of the subject by a trained security specialist where feasible.

When any of the above actions develops unfavorable information, a further investigation will be accomplished as is necessary.

5. (FOR OFFICIAL USE ONLY) In my judgement the proposed change will not significantly degrade security standards to an unacceptable level. In addition, greater impetus can be placed upon security education, security review programs and qualitative counterespionage operations.

6. (FOR OFFICIAL USE ONLY) In order to meet the GDIP decrement, I request that extraordinary action be taken to change or to waive for DoD the requirements in DCID 1/14 as outlined in paragraph 4 above, by 1 September 1971.

D. V. BENNETT

MEMORANDUM FOR: Director, Defense Intelligence Agency

SUBJECT : Personnel Security Investigative Requirements

REFERENCE : Memorandum from Director, DIA to Director of Central Intelligence, dated 23 August 1971, same subject

1. On 2 September 1971, the Security Committee of the United States Intelligence Board convened, at my direction, to review your proposal to change or to waive for the Department of Defense the investigative requirements in DCID 1/14 as those requirements pertain to a re-investigation for the purpose of updating when a background investigation is more than five years old.

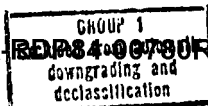

2. The Committee's majority conclusion to abide by the present investigative requirements of DCID 1/14, and one in which I concur, was rendered in accord with the tenor of the times, in which there has been a general tightening and bolstering of security practices and procedures, particularly within the intelligence community.

3. While I appreciate the dilemma which confronts us in these days of strict budgetary reductions, it is my belief that this period of special security concern requires that we hold the line in this vital area, particularly personnel security investigations.
